

M/019/005

Permit No.: UTR000000

STATE OF UTAH
DEPARTMENT OF ENVIRONMENTAL QUALITY
DIVISION OF WATER QUALITY
SALT LAKE CITY, UTAH 84114-4870

AUTHORIZATION TO DISCHARGE UNDER THE
UTAH POLLUTANT DISCHARGE ELIMINATION SYSTEM
(UPDES)
GENERAL PERMIT FOR STORM WATER
DISCHARGES ASSOCIATED WITH INDUSTRIAL ACTIVITY

In compliance with the provisions of the *Utah Water Quality Act, Title 19, Chapter 5, Utah Code Annotated ("UCA") 1953*, as amended (the "Act"),

MOAB SALT, INC.

is hereby authorized to discharge storm water from the specified industrial site identified in the Notice of Intent, Application No. UTR000111 to COLORADO RIVER,

in accordance with discharge point(s), effluent limitations, monitoring requirements and other conditions set forth herein.

Coverage under this permit shall become effective on October 1, 1992.

This permit and the authorization to discharge shall expire at midnight, September 30, 1997.

Signed this 29th day of September, 1992

A handwritten signature in cursive script, appearing to read "Alan G. Dethlefsen".

Authorized Permitting Official
Executive Secretary
Utah Water Quality Board

PART I
Permit No.: UTR000000

I. DEFINITIONS

A. Definitions

1. "Act" means the "*Utah Water Quality Act*"
2. "Best Management Practices" ("*BMPs*") means schedules of activities, prohibitions of practices, maintenance procedures, and other management practices to prevent or reduce the pollution of waters of the State. *BMPs* also include treatment requirements, operating procedures, and practices to control plant site runoff, spillage or leaks, sludge or waste disposal, or drainage from raw material storage.
3. "Coal pile runoff" means the rainfall runoff from or through any coal storage pile
4. "CWA" means *Clean Water Act* or the *Federal Water Pollution Control Act*.
5. "EPA" means the United States Environmental Protection Agency.
6. "Executive Secretary" means *Executive Secretary* of the *Utah Water Quality Board*.
7. "Flow-weighted composite sample" means a composite sample consisting of a mixture of aliquots collected at a constant time interval, where the volume of each aliquot is proportional to the flow rate of the discharge.
8. "Illicit discharge" means any discharge to a municipal separate storm sewer that is not composed entirely of storm water except discharges pursuant to a *UPDES* permit (other than the *UPDES* permit for discharges from the municipal separate storm sewer) and discharges from fire fighting activities, fire hydrant flushings, potable water sources including waterline flushings, uncontaminated ground water (including dewatering ground water infiltration), foundation or footing drains where flows are not contaminated with process materials such as solvents, springs, riparian habitats, wetlands, irrigation water, exterior building washdown where there are no chemical or abrasive additives, pavement washwaters where spills or leaks of toxic or hazardous materials have not occurred and where detergents are not used, and air conditioning condensate.
9. "Landfill" means an area of land or an excavation in which wastes are placed for permanent disposal, and which is not a land application unit, surface impoundment, injection well, or waste pile.
10. "Land application unit" means an area where wastes are applied onto or incorporated into the soil surface (excluding manure spreading operations) for treatment or disposal.
11. "Large and Medium municipal separate storm sewer system" means all municipal separate storm sewers that are either:
 - a. located in an incorporated place with a population of 100,000 or more as determined by the latest *Decennial Census* by the *Bureau of Census*; or
